PROFESSIONAL SUMMARY

MBA Business Analytics candidate and Data Analyst with hands-on experience in SQL, Power BI, Python, and Excel across retail, HR, and investment-sector data. Experienced in cleaning and analyzing large datasets (500K+ rows), building end-to-end Power BI dashboards with DAX, and applying Python-based statistical analysis to uncover business drivers. Maintains 98%+ accuracy across 300+ live records. Strong track record translating raw data into business-ready insights and recurring reporting. Seeking a Data Analyst role to apply analytical, dashboarding, and stakeholder-facing reporting skills.

EXPERIENCE

Associate Investment Manager (Analytics & Reporting) | Square Yards, Pune *Apr 2026 – Present*

- Analyzed client and deal-pipeline data in CRM and Excel, building recurring KPI trackers used by management to monitor leads, pipeline activity, and deal progress.
- Gathered and structured business requirements from developer, legal, and finance stakeholders, improving accuracy of transaction and pipeline records used for decision-making.
- Coordinated across three departments to resolve documentation and data gaps, reducing reporting discrepancies in shared pipeline data.

Industrial Trainee — Data & Ops Support | Lords Pharmaceuticals, Ch. Sambhajinagar *Jun 2025*

- Identified and resolved data inconsistencies across 500+ operational records through systematic validation, reducing rework and improving downstream reporting reliability.
- Organized and structured 1,000+ rows of operational data in Excel, improving data retrieval efficiency for the operations team.
- Built structured Excel reports using sorting, filtering, and formulas to streamline management reporting.

DATA ANALYTICS PROJECTS

Cricbuzz LiveStats — Real-Time Cricket Analytics Dashboard | *Python, SQL, Streamlit, SQLite, Plotly*

- Built an end-to-end analytics dashboard processing 22,000+ Cricsheet YAML match files into a structured SQLite database covering 5,000+ players, 4,500+ matches, and 220+ teams.
- Authored 25+ SQL practice queries for match, player, and team-level analytics, and implemented full CRUD functionality for player, match, and score records.
- Integrated the Cricbuzz live API to surface real-time match status, live scores, and top run-scorer/wicket-taker leaderboards alongside historical data.
- Designed a multi-page Streamlit app with interactive Plotly visualizations (win tallies, role breakdowns, timelines) to present KPIs and comparative performance.

Employee Attrition Analysis (HR Analytics) | *SQL, Python (Pandas, Scikit-learn)*

- Queried and segmented employee records using SQL across department, tenure, and salary band to isolate attrition patterns.
- Built a Python-based analysis (Pandas, Scikit-learn) using a logistic regression model to identify the top factors driving employee attrition, such as tenure, overtime, and role level.
- Summarized findings in a written report highlighting the highest-risk employee segments and recommended retention focus areas.

Retail Sales & Customer Insights Analysis | SQL, Python, Power BI

- Queried and cleaned a 500K+ row retail transactions dataset in SQL, consolidating sales, customer, and product data into an analysis-ready model.
- Used Python (Pandas) to profile purchasing patterns, identifying top-performing product categories and customer segments.

LEADERSHIP & ACHIEVEMENTS

Vice President — Placement Department | ASM IBMR, Pune

Feb 2026 – Present

- Screened and filtered 300+ student placement records in Excel, maintaining 98%+ data accuracy for leadership review.
- Used pivot tables, VLOOKUP, sorting, and filtering to generate placement analytics; coordinated with 5+ departments to maintain real-time placement dashboards.

Vice President — Startup and Innovation Cell | ASM IBMR, Pune

Jan 2026 – Present

- Organized innovation-related events and analyzed participation data in Excel to guide planning and improve engagement.

SKILLS

Analytics Tools: SQL (Queries, Joins, Subqueries, Aggregations, CTE, Store Procedure), Power BI (Power Query, DAX, dashboarding), Python (Pandas), MS Excel (Advanced — VLOOKUP, HLOOKUP, XLOOKUP, Pivot Tables), Tableau

Data Skills: Data Cleaning, ETL, Data Validation, Data Visualization, Statistical & Trend Analysis, KPI Reporting

Business Analysis: Requirements Gathering, BRD/FRD, Process Mapping, Gap Analysis, UAT Support, Agile/Scrum

Collaboration: MS Word, PowerPoint, CRM Tools, JIRA (familiar), MS Teams

EDUCATION

MBA — Business Analytics | ASM IBMR, Pune (SPPU University)

2025 – 2027

- Relevant Coursework: Business Analytics, Statistics for Decision-Making, Operations Management, Database Management, Business Research Methods.
- Applying coursework directly through live SQL/Python/Power BI projects (see Data Analytics Projects) and a current data-focused analyst role at Square Yards.
- Active in institute leadership as Vice President of the Placement Department and Startup & Innovation Cell (see Leadership & Achievements).

Bachelor of Pharmacy (B.Pharm) | Dr. VPPC, Ch. Sambhajinagar

2021 – 2025

- CGPA: 7.86 (A+)
- Built a strong analytical and data-driven foundation through statistics, research methodology, and pharmaceutical data analysis coursework.
- Completed Industrial Training (Implant Training) in pharmaceutical manufacturing operations, including data validation and reporting (see Experience).
